Overview

APC APCRBC18 UPS Replacement Battery Cartridge

The APC Replacement Battery Cartridge #18 fits selected APC Smart-UPS and Back-UPS models, restoring power back-up capacity for home offices, small businesses, and IT departments. This replacement battery cartridge (RBC) has a lifetime of three to five years, offers safe and reliable support to the UPS, and extends the useful life of your UPS. The APC RBC #18 comes fully assembled and includes easy-to-follow replacement instructions, making hot-swap installation simple. APC RBCs are compliant with international regulations and safe for transport. They include instructions and reusable packaging with prepaid postage for safe disposal of old cartridges.

- For UPS at home and small businesses supporting computers and network systems
- Guaranteed compatibility with APC UPS devices
- Reliable battery for power spikes and outages
- Easy hot-swap installation without downtime
- Spill-free sealed battery uses recycled lead

Guaranteed Compatibility with UPS Systems

Each APC RBC #18 is tested and approved by APC to restore the performance of UPS systems to the original operating specifications. This RBC conforms to safety regulations and maintains original UPS specifications and protection policies. The battery has an expected life of three to five years.

Fully Assembled for Easy Hot-Swap Installation

APC RBC #18 comes fully assembled with connections made with high-current, gas-tight crimps and fuses included, making hot-swap installation quick. No downtime is necessary in order to install the battery cartridges. Easy-to-follow replacement instructions are included.

Convenient and Compliant

The APC RBC #18 is a spill-free sealed lead acid battery, which makes it compliant with international regulations and safe for transport. Almost all the lead content in the battery is reused, helping to protect the environment from hazardous chemicals. Generate a pre-paid shipping label and send your old battery to a certified recycling facility free of charge. For details visit website.

Genuine APC Replacement Battery Cartridges for Superior Performance

Because batteries in the market can vary in quality, using third-party batteries raises the risk of personal injury to the user, damage to the UPS, poor performance, or device failure. In contrast, APC demands the highest quality from its battery suppliers, monitors the health of batteries while in storage, and matches the specifications of the UPS to the batteries it uses. APC replacement battery cartridges are designed for safe and easy installation, and are delivered fully assembled and tested. APC also offers an Equipment Protection Policy for devices protected by the UPS.

Compatibility

The APC RBC #18 is compatible with the following models: BR1200G-FR, BR1200GI, BR1300G, BR1500G, BR1500G-FR, BR1500GI, SMC1000-2U, and SMC1000I-2U.

What's in the Box

- Battery cartridge #18
- All required connectors
- Battery recycling guide
- Installation guide
- Reusable packaging

RBC18 Features

APC Replacement Battery Cartridge #18

Genuine APC RBC(TM) are tested and certified for compatibility to restore UPS performance to the original specifications.

Includes : All required connectors , Battery recycling guide , Installation Guide , Reusable packaging

Replacement Battery Cartridges Features & Benefits

Compatibility

Guaranteed UPS compatibility

Tested and approved to enhance the performance of your APC UPS. Maintains UPS safety certifications (UL, VDE, CSA) and lifetime equipment protection policy (as applicable).

Long battery life

Designed by APC by Schneider Electric exclusively for APC UPS's for complete compatibility with the intelligent battery management system.

Convenience

Fully assembled for easy hot-swap installation

APC RBCs are safe, reliable and contain a minimum number of connections saving valuable time. Because APC RBCs are hot-swappable, no network downtime is required in order to install them.

Re-usable packaging with clear instructions on how to properly dispose of spent batteries.

Convenient, easy and green.

Prepaid postage to a nearby recycling partner (availability varies by country)

Insures that almost 100% of the old battery is recycled, protecting the environment.
