

Item # 8101-0104-40, UltraFlex Hollow Core Round Copper Knitted Wire Shielding

UltraFlex Hollow Core Round Copper Knitted Wire Shielding

Stock Locator

UltraFlex ElectroNit combines the optimum mechanical properties of beryllium copper with shielding effectiveness as much as 20 dB higher than conventional materials. It offers superb resiliency for consistent, point-to-point contact requiring the lowest compression forces among all other shielding materials and configurations. A wide range of platings, sizes, configurations, and excellent flexibility create optimum design latitude.

• Other platings available upon request

SPECIFICATIONS

Groove Dimensions W	0.117 inches
Groove Dimensions W	3 mm
Groove Dimensions H	0.15 inches
Groove Dimensions H	3.8 mm
Diameter	0.156 inches
Diameter	4 mm
Groove Dimensions W Tolerance	+0.030 inches
Groove Dimensions W Tolerance	+0.8 mm
Groove Dimensions H Tolerance	+0.030 inches

Groove Dimensions H Tolerance	+0.8 mm
Diameter Tolerance	+0.020 inches
Diameter Tolerance	+0.5 mm
