

## PCB

IMPEDANCE: 50 Ohms  
Frequency range: 0~6GHz  
VSWR: 1.5MAX  
Working voltage: 500V rms @ sea level  
Insulation resistance: 5000 Ohms min  
Temperature range: -55°C TO +155°C  
Relative temperature: ≤95%(40° C±2° C)

|   |             |          |         |     |                   |           |                     |                                                                                                                                                                                              |                                |                                   |                            |          |
