

SIP 07648 Welders Angle Clamp 6 Inch

The SIP 07648 specialist angle jig and fixture clamp allows one person to set up and weld immediately.

Made from cast iron, it has a pivoting jaw and copper plated spindle for spatter protection. The sliding 'T' handle gives precise clamping for many welding tasks under high pressure and the holes allow the clamp to be easily fixed to a workbench or machine tool table.

- Specialist Angle Jig & Fixture Clamp
- Sliding 'T' Handle For High Pressure
- Cast Iron
- Oblong Holes For Easy Fixing To Workbench / Work Machine
- Spindle Copper Plated For Spatter Protection
